### PROFESSIONAL SUMMARY

---

Frontend Developer and Architecture student building responsive, interactive web experiences with HTML5, CSS3, JavaScript (ES6+), TypeScript, React and DOM-driven interfaces. Hands-on experience across e-commerce storefronts, portfolio systems, business websites and browser applications, with strengths in responsive UI, accessibility, API/REST integration, debugging, Git/GitHub and modern frontend workflows.

### TECHNICAL SKILLS

---

**Core Frontend** HTML5, CSS3, JavaScript (ES6+), TypeScript, React, DOM Manipulation, Responsive Web Design

**UI & Application** Tailwind CSS, CSS Grid, Flexbox, Component-Based UI, State Management, Accessibility (a11y), Figma, UI/UX Prototyping

**Engineering & Workflow** API/REST Integration, Git, GitHub, Chrome DevTools, VS Code, Semantic Markup, Cross-Browser Compatibility, Frontend Testing

**Deployment** Netlify

### PROFESSIONAL EXPERIENCE

---

#### Kulvix **Frontend Developer & Instructor (Intern)**

Jan 2026 – Present

- Contribute to responsive frontend development while strengthening practical skills across HTML, CSS, JavaScript, TypeScript and React.
- Built and deployed a responsive capstone web project, applying structured UI design, responsive layouts and frontend development practices.
- Guide beginner developers through HTML, CSS and JavaScript fundamentals, helping learners build practical frontend interfaces.

#### POW (Proof of Work) **Frontend Developer / Web Developer**

Mar 2026

- Developed two portfolio-template systems with editable content, reusable interface patterns and recruiter-focused presentation.
- Implemented inline editing, theme controls, JSON import/export and browser persistence to make portfolio customization practical without a backend.
- Worked on premium, presentation-focused interfaces designed for users who want polished portfolio experiences.

#### Deliver-Now **Frontend Developer / Web Developer**

May 2026

- Contributed to UI layouts and frontend workflows for mineral transportation and logistics operations.
- Worked with TypeScript frontend logic around login, transportation and tracking workflows, including batch and equipment-audit interfaces.
- Helped shape a responsive interface for monitoring the movement of mineral resources through logistics workflows.

#### PercorsoTech **Frontend Development Intern / Learner**

Sep 2025 – Nov 2025

- Built foundational web-development skills through practical work with HTML, CSS and JavaScript.
- Gained early exposure to frontend development workflows and the process of turning web concepts into working interfaces.

### SELECTED PROJECTS

---

#### Chinedu Michael Portfolio

React, TypeScript, Tailwind CSS, JavaScript

[Live Demo: chinedumichael.netlify.app](https://chinedumichael.netlify.app)

- Built and deployed the central professional portfolio used to present frontend projects, skills, experience and contact information.

#### POW Portfolio Template 1

HTML5, CSS3, TypeScript, JavaScript

[Live Demo: portfoliotemplate0.netlify.app](https://portfoliotemplate0.netlify.app)

- Developed an editable portfolio template with inline editing, themes, JSON import/export, localStorage persistence and interactive presentation.

## SELECTED PROJECTS — CONTINUED

---

### Lydia Luxury Apparel

HTML5, CSS3, Vanilla JavaScript, GSAP/ScrollTrigger, Swiper, Three.js

[Live Demo: lydiaapparel.netlify.app](#)

- Built a responsive luxury-fabric storefront with interactive product presentation, bag state, theme switching and WhatsApp ordering.

### Chinedu Quiz Game

HTML5, CSS3, JavaScript (ES6+)

[Live Demo: chineduquizgame.netlify.app](#)

- Developed a timed browser quiz with shuffled questions, answer state, scoring, result feedback and saved progress.

### Kulvix Project

HTML5, CSS3

[Live Demo: kulvixproject.netlify.app](#)

- Built a responsive business/portfolio template with structured navigation, hero presentation, project sections, about content and contact flow.

### Yhudee Collection

HTML5, CSS3, Vanilla JavaScript

[Live Demo: yhudeecollection.netlify.app](#)

- Built a 47-product luxury storefront with search, category filtering, sorting, persistent shopping-bag state, pricing logic, theme persistence and WhatsApp/email checkout.

### Sage Arts Service Platform

HTML5, CSS3, JavaScript

[Live Demo: sageartcollection.netlify.app](#)

- Built a commercial services website with service presentation, portfolio filtering, process flow, quote/contact form, theme switching and responsive interactions.

### POW Portfolio Template 2

HTML5, CSS3, TypeScript, JavaScript

[Live Demo: GitHub repository](#)

- Built a second editable portfolio-template iteration around a typed portfolio data model, theme controls, import/export workflow and a lightweight zero-build runtime.

## ADDITIONAL PROJECTS

---

Project work also includes reusable business-web patterns, responsive retail interfaces, JavaScript applications and frontend template systems.

## ADDITIONAL INDUSTRY EXPOSURE

---

Technology Services & Development — Practical exposure to frontend development workflows, Git-based collaboration, UI implementation and turning digital ideas into working web interfaces.

## CERTIFICATION

---

PercorsoTech Web Development Certification

## ADDITIONAL CAPABILITIES

---

UI/UX: Figma interface design and prototyping Design: Graphic design

## EDUCATION

---

Bachelor of Architecture (B.Arch), 200 Level — In Progress

Enugu State University of Science and Technology (ESUT), Enugu | 2025 – 2029
