PROFESSIONAL SUMMARY

Results-driven Frontend Web Developer with experience designing, developing, and deploying responsive web applications, portfolio systems, business websites, and e-commerce platforms. Skilled in HTML5, CSS3, JavaScript, Git, GitHub, and Netlify deployment workflows.

Demonstrated ability to transform concepts into scalable, user-focused digital products with strong emphasis on responsive design, performance optimization, user experience, and modern web standards. Currently contributing to technology-focused organizations across web development, logistics intelligence, and portfolio infrastructure platforms.
